Re: Solicitation Number: FA8903-18-BRAC-RFI-01
BRAC FY 2020 PBR Follow On Acquisition Strategy

Dear Mr. Neeb:

The members of the Small Environmental Business Action Coalition (www.SEBC.org) wish to introduce ourselves and express our concerns regarding the Air Force's acquisition strategy for the OCONUS PBR Follow On contract for Galena Air Force Station and Kulis Air Base identified in the BRAC BECOS Update presented by Daniel Medina on 14 August 2019 as "Full and Open".

Nationally, SEBAC represents the majority by market share of environmental remediation businesses under the NAICS code 562910 and offers a combined industry voice for small businesses. The small business community appreciates the Air Force setting aside the CONUS regional contracts for small business, but requests that it set aside the OCONUS contract for small business as well. The scope of work identified in the Air Force RFIs under this solicitation is not complex (e.g., remedial system operation and maintenance, long-term monitoring, and five-year reviews) and there are ample small businesses and SBA Mentor-Protégé Joint Ventures located in Alaska that are fully capable of meeting this requirement.

Thank you for your time, and, in advance, for your consideration of this request.

Sincerely,

John Dwyer
President
SEBAC
