Dear Mr. Halverson and Ms. Acrey:

Thank you in advance for review of this letter. I am writing to you on behalf of the members of the Small Environmental Business Action Coalition, Inc. (SEBAC), www.sebac.org. SEBAC serves as a voice for the small business community providing environmental engineering, remediation and related support to the U.S. Department of Defense (DOD) and other Federal agencies throughout the country. A key part of our mission is to support and promote opportunities for small businesses by monitoring the federal government's goals, policies, and regulations regarding small business participation.

Regarding the subject Sources Sought, SEBAC is grateful for the Army National Guard for performing market research for this proposed procurement in support of the small business community. SEBAC, representing over 60 small businesses in the 562910 NAICS category, many of which are considered some of the largest small businesses in that NAICS code, respectfully asks that the Army National Guard set this procurement aside for the small business community as a 100% Small Business set aside under the prescribed NAICS code. Based on review of the proposed scope of work for this procurement, SEBAC is 100% confident that there are sufficient, experienced and capable small businesses available to successfully complete the proposed work in the remediation marketplace.

I would kindly ask that you provide an acknowledgement of this letter. Please do not hesitate to contact the undersigned if I can be of any further service or provide additional information in support of our position on this matter: I can be reached at jdwyer@kemron.com. We look forward to engaging you in a dialogue, and we thank you for your consideration.

Respectfully,

John M. Dwyer
President, SEBAC
